More than 130 years  
of innovation

**1883**  
Warren S. Johnson receives a patent for the first electric room thermostat. His invention launched the building control industry and Johnson Controls.

**1910**  
Namihei Odaira founds an electrical repair shop at Kuhara Mining in Hitachi (Ibaraki, Japan). The company has been a technology leader ever since.

**1936**  
1st fully air-conditioned office building.

**1958**  
1st all-in-one centrifugal chiller with water-cooled condenser, completely factory-installed.

**1952**  
1st air conditioner in Japan.

**1978**  
1st chiller with variable speed drive.

**1962**  
1st heat pump in Japan.

**1999**  
1st graphical user interface (UI) on a chiller.

**1983**  
1st DC Inverter air conditioner in the world.

**2006**  
• 1st 6-outlet multi-split on the market.  
• 1st air/water heat pump.

**2005**  
Acquisition of the York® brand.

**2010**  
Johnson's head office receives LEED Platinum certification, a green building label awarded to programs at the cutting edge of energy and environmental design.

**2008**  
• 1st console dedicated to the heating market.  
• 1st IVX on the market.

**2013**  
1st NF PAC very high temperature heat pump.

**2011**  
• 1st split thermodynamic unit on the market.  
• 1st 2-tube/3-tube VRF on the market.

**2016**  
New range of Yutaki air-to-water heat pumps.

**2015**  
On October 1, launch of the new Johnson Controls - Hitachi Air Conditioning company.

**2019**  
• New VRF SET FREE Mini with horizontal air discharge.  
• New range of Yutaki R32 air-to-water heat pumps.  
• Hi Kumo PRO, new remote maintenance solution for air-to-air and air-to-water heat pumps.

**2018**  
Solution Triple C, 1st multi-split thermodynamic water heater.

**2021**  
• Silent-Iconic design front panel for 800x800 cassette.  
• New range of ultra-compact duct units.

**2020**  
• Yutampo R32 thermodynamic water heater.  
• New range dedicated to Primary R32 retail.

**2023**  
• New range of air-to-water heat pumps Yutaki H range of air-to-water heat pumps.  
• New VRF air365 Max (Pro) with exclusive NFC technology.

**2022**  
• New generation of Yutaki 2.0 air-to-water heat pumps.  
• New airHome 400/600 single-split wall-mounted units.

# Johnson Controls-Hitachi Air Conditioning

**Johnson Controls-Hitachi Air Conditioning offers the most comprehensive range of heating, air conditioning air-conditioning and air-handling products in the world.**

Always at the cutting edge of technology, we develop products for the comfort of all, in both professional and domestic environments, for the new-build and renovation markets.

Respect for the environment is also a priority, from product design to production, including installation and commissioning procedures.

Whatever your requirements, the Hitachi network is there to support you and offer the right solutions.

  
**+ 4,5 M**  
per year of products  
manufactured

  
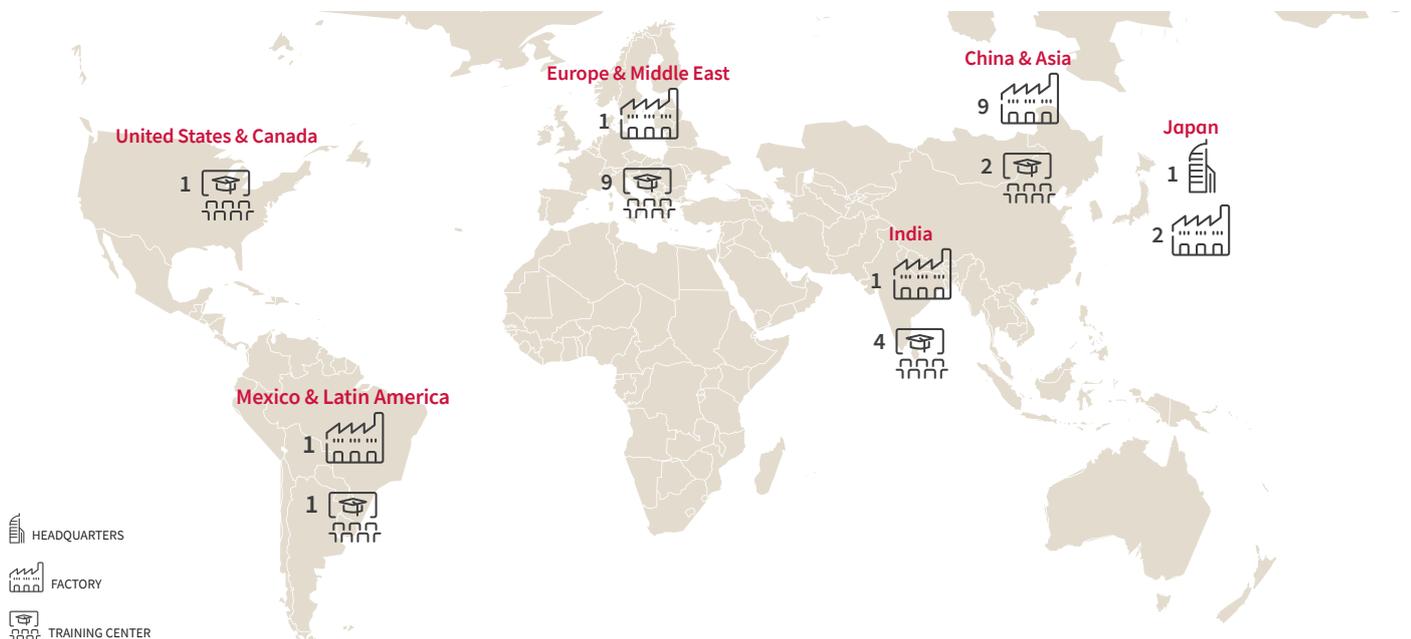

**~ 15 000**  
employees

  
**8 %**  
of sales reinvested  
in r&d

  
**+ 140**  
years of innovation

  
**14**  
factories worldwide

research center

# Focus on the Barcelona factory

## More than 30 years in business

With over **30 years of expertise in the development of heating and air conditioning equipment**, our Johnson Controls - Hitachi teams at the factory in Barcelona (Spain) work hard every day to supply products of the highest quality, combining innovation, performance and durability.

Today, all **VRF systems, Yutaki air-to-water heat pump** ranges and water-to-water chillers are produced **at the Barcelona factory**, which accounts for almost the entire Hitachi's equipment portfolio.

Our factory is also our European **spare parts management center**. This proximity enables us to offer our customers unrivalled responsiveness and delivery times.

### A factory committed to the environment...

Since 2017, the Johnson Controls-Hitachi European factory has **been recycling 100%** of its waste, as part of an ongoing commitment to sustainable development. It has received 4 "Zero Waste to Landfill" awards, a certificate of environmental excellence and an award for team dedication and commitment to the environment.

### ... which continues to grow

- 45,000 m2 of factory space.
- A 750m2 showroom displaying almost 40 products, and a training center with over 70 products in operation.
- 100% European production for VRF, Small Commercial, air-to-water heat pumps (IU & OU) & chillers ranges.

## RESIDENTIAL

### PRE-SALE

#### Integrated air purification

- Antivirus filters
  - Ionizer
  - FrostWash
  - Mold Guard
- No accessories to add!

#### A range suitable for even the coldest climates, year-round

airHome 800\*: constant capacity down to -15°C.

#### airCloud Go demo mode

Show airCloud Go to your customers in demo mode.

### INSTALLATION AND START-UP

#### Easy to install

airHome 400: One diameter of refrigerant piping up to size 50\*\*:  
1/4" / 3/8"

**airHome** 400

▶ [bit.ly/installation-airHome400](https://bit.ly/installation-airHome400)

#### Wifi card built into the unit!

There are no accessories to be added. Units can be controlled via APP as soon as they are turned on:  
airHome 400 / 600 / 800

### POST SALE

#### FrostWash

Self-cleaning exchanger:  
94% of performance maintained  
VS 82% without FrostWash.

#### Hi-Parts

The key online tool for distributors:

- Exploded unit views
- Parts Order
- Warranty tracking

## + COMFORT DOWN TO -20°C

- **Constant Power technology:** rated capacity is maintained down to -15°C outside and provides heating down to -20°C.

### Indoor units

### Outdoor unit

## Compatible controls and accessories

### Infrared wireless controller

New infrared control  
Ref.: RC-BGH1FA0G  
Included

### Wired controller

Wired controller  
airPoint Room H700  
Ref.: SPX-URFG

H-Link gateway  
Ref.: PSC 6RAD

5 m extension cable for wired controller  
(max. 2 extension cables/controller)  
Ref.: SPX-WKT5M

### Dry contact kit

Single dry contact kit  
Ref.: SPX-WDC3

Failure report + operation information  
Ref.: SPX-WDC8

## + EFFICIENCY

### Indoor unit

- **FrostWash<sup>(1)</sup> 3.0 technology:** self-cleaning of Indoor unit heat exchanger.

- **Mold Guard 2.0 function:** Using a humidity and temperature sensor, the air conditioner determines when it is necessary to heat the Indoor unit heat exchanger to prevent mold and odor growth.

### Outdoor unit

- **FrostWash Outdoor unit technology:** self-cleaning of the Outdoor unit heat exchanger.
- **DuraSpin:** airflow from the fan is directed to the Outdoor unit condenser, cleaning it of dirt and dust.

## + COMFORT AT HAND

- Always with you with the airCloud Go app.
- Wi-fi as standard.
- Smart Geo Fence geolocation function.

## + FLEXIBILITY OF INSTALLATION

Floor installation  
on base (included)

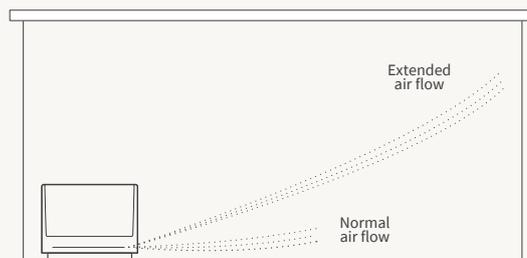

Wall installation

## + COMFORT

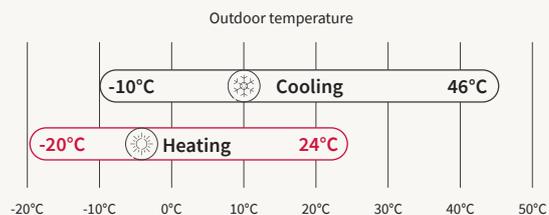

Extended airflow allows for greater indoor comfort:

- The desired temperature is reached quickly.
- More homogeneous indoor temperature.

## + COMFORT ALL YEAR ROUND

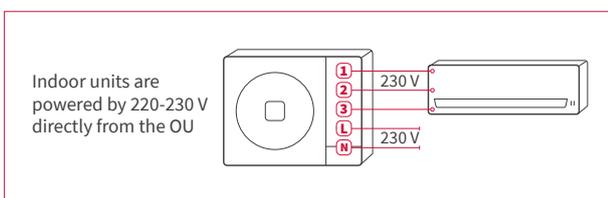

- Maintains nominal heating capacity at -7°C ext for size 25.

Power supply	-	220-230V							

### Attention

The capacity of each Indoor unit depends on the Outdoor unit, the selected combination, the length of piping, and the Outdoor temperature. The length of piping used to determine the above values is 10 m. Capacity of indoor units must not exceed capacity of outdoor unit: see the combination table. For accurate selection, please consult our technical documentation.

Indoor units are powered at 220-230 V from the Outdoor unit.

## Central group control with wired controller

- ✓ 1 box SPX-DST1 can control up to 4 Indoor units
- ✓ Up to 4 SPX-DST1 distributors can be connected to control up to 13 Indoor units.
- ✓ Provide 1 cable between each Indoor unit and the SPX-DST1 distributor (also provide 1 cable between two SPX-DST1 distributors).
- ✓ All Indoor units operate in the same mode and with the same setpoint.

# Save energy with Hitachi controllers!

This month	18.6 kWh
Last month	43.5 kWh

### Via the airCloud Go app

## Edit settings

### Activating the ECO mode

#### Via infrared controller

RC-AGU1EA0G ; RC-AGS1EA0E ; RAR-6NE1 ; RAR-6NE4 ; SPX-RCKA1 ; SPX-RCKA3 ; RC-BGH1FA0G ; RC-BGH1FA0E ; SPX-RKD800 ; SPX-RKC800

#### For Units without motion sensor

This mode automatically increases (cooling mode) or decreases (heating mode) the set temperature.

#### For Units with motion sensor

2 modes to choose from:

##### Smart Eco Mode (set point shift)

If nobody detected for **20 min**

❄️ COOLING MODE = +1°C

☀️ HEATING MODE = -1°C

If nobody detected for **60 min**

❄️ COOLING MODE = +1°C

☀️ HEATING MODE = -1°C

##### Auto Off Mode\*

If nobody detected for **60 min**

❄️ ☀️ Indoor unit stops

#### Via wired controller

SPX-WKT4 ; SPX-URFG

### Setting the weekly schedule

Set your own operating preferences to avoid energy waste.

#### Via Infrared controllers

RAR-6NE1 ; RAR-6NE4 ; SPX-RCKA1 ; SPX-RCKA3 ; RC-BGH1FA0G ; RC-BGH1FA0E ; SPX-RKD800

#### With wired controllers

SPX-WKT4 ; SPX-URFG

#### Via the airCloud Go app

### Using geolocation

#### Via the airCloud Go app

Turning the Unit on and off when returning or leaving home:

- ✓ Via smartphone geolocation,
- ✓ Choice of range in km around your home,
- ✓ Setting the Unit mode.

# Connected home & home automation

## Control your units remotely with airCloud Go

Hitachi application dedicated to **Mono and Multi residential air-to-air heat pumps.**

- ✓ **airHome 400, 600 and 800 :** Wifi Included.
- ✓ **Performance, Hi-End, Shirokuma Floor, Ducted and Cassette:** Requires SPX-WFG02 adapter.
- ✓ **airHome Floor / Cassette / Ducted:** Requires SPX-WFG03 adapter.

Disponible en App Store

Disponible en Google Play

Go to: [bit.ly/aircloud-go-global](https://bit.ly/aircloud-go-global)

### Functions:

- Start/Stop
- Temperature setting
- Weekly programming

- Energy consumption display (for airHome range)
- Geolocation
- Compatibility with Google Home and Amazon Alexa
- Display of alarm codes

## Home automation with Somfy

Hitachi air-to-air heat pumps integrate into the Somfy ecosystem using the SPX-TAG01 interface.

The SPX-TAG01 gateway is compatible with:  
 - TaHoma Switch Box (available at Somfy distributors)  
 - olderTahoma Box (available at Somfy distributors)

### Centralize your controls for the entire house in a single application:

- Control your Hitachi residential AC
- Control your gates, blinds, alarm...
- Program and create operation scenarios of your equipment

## "1 for 1" KNX and Modbus gateways

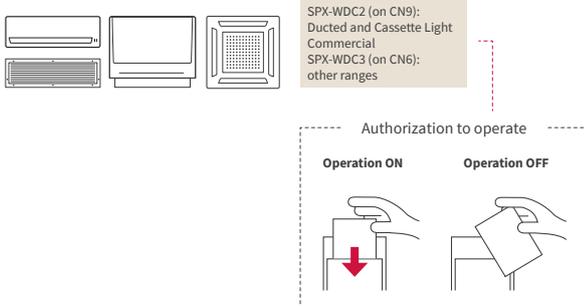

- ✓ Easy to install
- ✓ Two-way bidirectional control
- ✓ 1 gateway per indoor unit

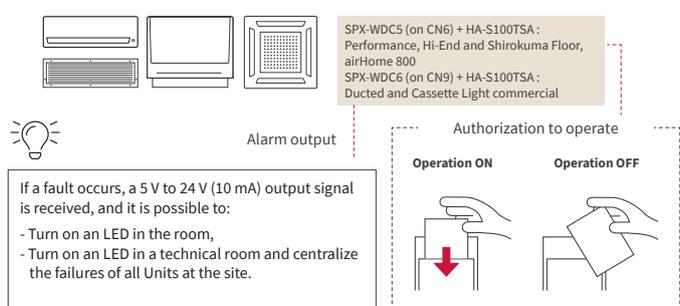

# External control solutions for the residential range

## ON/OFF control and fault reporting

### ON/OFF control (Key Card application for small B&Bs)

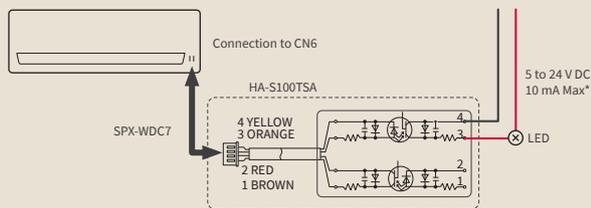

### ON/OFF control + alarm signal

**Reducing consumption**  
Units work only when it is necessary

## ON/OFF status or fault reporting

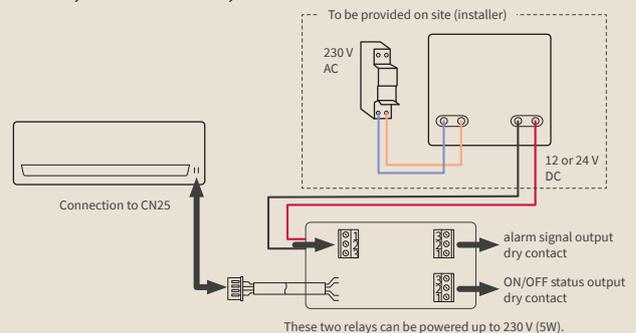

**Fault reporting kit: SPX-WDC7 + HA-S100TSA**  
1 alarm signal output (5V to 24V signal - 10 mA max)  
Compatible with Performance, Hi-End and Shirokuma Floor

\*Warning: external power supply is mandatory

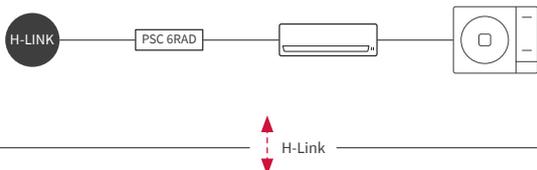

## Fault reporting + operation status:

**SPX-WDC8**  
Compatible airHome 600, airHome 800, Performance, wall Hi-End, airHome Floor, ducted and cassette units

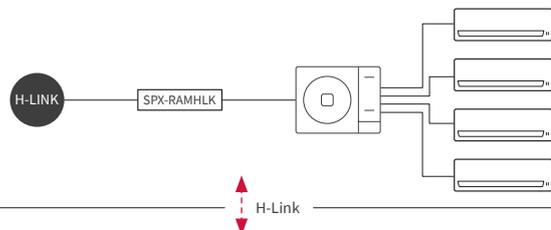

## From residential to commercial range: our H-Link solutions for the residential range

### H-link Monosplit gateway: PSC-6RAD

### H-link Multisplit gateway: SPX-RAMHLK

### H-link range of Central controllers

\* To work with airCloud Pro, there must be connected at least one VRF system in the installation with RAC units.

# Notes

The specifications in this catalog are subject to change without notice.

For precise and detailed information, please consult our technical manuals or your nearest HITACHI distributor.

Only the information contained in our technical manuals is authentic.

## Note 1

The nominal capacities indicated for the units, wall-mounted, airHome 400, airHome 600, airHome 800, floor, ducted, cassette split units, multisplits. Utopia Prime, Micro VRF, Set Free Mini, air365 Max (Pro) are given for the following temperature conditions:

### - COOLING MODE:

According to JIS standard: B8616-1984  
 Inside temperature: 27 °C DB / 19 °C WB  
 Outside temperature: 35 °C DB  
 Piping length: 5 m or 7.5 m

### - HEATING MODE:

Indoor temperature: 21 °C DB  
 Outside temperature: 7 °C DB / 6 °C WB  
 Piping length: 5 m or 7.5 m

## Note 2

Please refer to technical manuals for sound pressure curves. They are measured in an anechoic chamber and possible reverberated sounds must be taken into account during installation. The values are given for a measurement 1- 1.5 m from the device, details are described in corresponding technical manuals.

## Note 3

Piping conversion table:

Inches	Millimeters	Inches	Millimeters	Inches	Millimeters
1/4	6,35	5/8	15,88	1" 1/8	28,58
11/32	8,73	3/4	19,05	1" 1/4	31,75
23/64	9,13	7/8	22,23	1" 1/2	38,1
3/8	9,53	57/64	22,62	1" 3/4	44,45
13/32	10,32	29/32	23,02	2" 3/4	69,85
7/16	11,11	1"	25,4	5" 1/2	139,7
1/2	12,7				

## Note 4

- Instantaneous performance coefficients (EER and COP)  
 Air/Air heat pump:

Energy efficiency class	EER (Cooling Mode)	COP (Heating Mode)
A	EER > 3,20	COP > 3,60
B	3,00 < EER ≤ 3,20	3,40 < COP ≤ 3,60
C	2,80 < EER ≤ 3,00	3,20 < COP ≤ 3,40
D	2,60 < EER ≤ 2,80	2,80 < COP ≤ 3,20
E	2,40 < EER ≤ 2,60	2,60 < COP ≤ 2,80
F	2,20 < EER ≤ 2,40	2,60 < COP ≤ 2,80
G	EER < 2,20	COP < 2,40

- Annual performance coefficients (SEER and SCOP)  
 Air/Air heat pump < 12 kW:

Energy efficiency class	SEER (Cooling Mode)	SCOP (Heating Mode)
A+++	SEER ≥ 8,50	SCOP ≥ 5,10
A++	6,10 ≤ SEER < 8,50	4,60 ≤ SCOP < 5,10
A+	5,60 ≤ SEER < 6,10	4,00 ≤ SCOP < 4,60
A	5,10 ≤ SEER < 5,60	3,40 ≤ SCOP < 4,00
B	4,60 ≤ SEER < 5,10	3,10 ≤ SCOP < 3,40
C	4,10 ≤ SEER < 4,60	2,80 ≤ SCOP < 3,10
D	3,60 ≤ SEER < 4,10	2,50 ≤ SCOP < 2,80
E	3,10 ≤ SEER < 3,60	2,20 ≤ SCOP < 2,50
F	2,60 ≤ SEER < 3,10	1,90 ≤ SCOP < 2,20
G	SEER < 2,60	SCOP < 1,90

## Note 5

All HITACHI air conditioners and heat pumps are manufactured in accordance with the European Community directives listed below:

- Council Directive 73 / 23 / EEC, dated 19/02/1973.
- Council Directive 89 / 336 / EEC, dated 03/05/1989.
- Council Directive 89 / 392 / EEC, of 14/06/1989.

## Note 6

All HITACHI plants are ISO 9001 and ISO 14001 certified.

## Note 7

- EUROVENT

HITACHI AIR CONDITIONING EUROPE SAS participates in the Eurovent Certification Program for air conditioners and heat pumps.

Certified models are listed in the Eurovent Directory ([www.eurovent-certification.com](http://www.eurovent-certification.com) or [www.certiflash.com](http://www.certiflash.com)).

# Discover the meaning of our icons

The different icons are made to facilitate your choice through immediate visualization of the different technologies applied to each product. You can leave the back cover open while browsing, for quick comparison and to make your selection easier and faster.

**airCloud Go**  
Compatibility with the  
airCloud Go APP

**Motion (Human) Sensor**  
Product equipped with motion sensor  
for advanced functions

**4 way swing**  
Distributes air in 4 directions  
for better comfort

**Airzone compatibility**  
Product connectable with Airzone  
distribution plenums

**Constant Power**  
Keeping the high heating performance  
in below zero temperatures

**FrostWash**  
Cleaning feature of indoor heat  
exchanger

**FrostWash 3.0**  
Advanced cleaning feature of indoor  
heat exchanger

**AQtiV-ion**  
Ionizer technology for cleaner and  
healthier indoor environment

**Energy class**  
Efficiency parameter of the system

**R32**  
Product using R32 refrigerant

**Eurovent Certificate**  
Product featured within  
the Eurovent certification  
program

**Keymark**  
Product featured within  
the HP Keymark certification  
program

**New Product**  
Latest addition to the Hitachi portfolio

**reddot winner 2022**

**Design Award**  
Product won the international Red Dot  
Award: Product Design 2022

**Design Award**  
Product won the international European  
Product Design Award™ in the "Home:  
Heating and Air Conditioning" category
