

Underfloor Heating
Price List - February 2018

Lexusheat FlexiPex Pipe

Lexusheat FlexiPex pipe has been manufactured with cross-linked polyethylene (PEX) piping with excellent mechanical properties making it ideal for underfloor heating systems. We would recommend using FlexiPex with heat pump systems as the thermal conductivity of the pipe decreases system temperatures compared to multi layer systems. Made in the EU.

Description	Code	Quantity/Unit	Price

Lexusheat MLC Pipe

Lexusheat MLC Pipe has been manufactured to same strict standards as the WRAS approved Firmopress Pert-Al-Pert pipe but has not gone through the WRAS approval process. The MLC pipe is suited to underfloor heating as the aluminium core is slightly thinner than the WRAS approved product meaning that bends can be pulled easier. The pipe is for underfloor heating only and shouldn't be used for hot and cold water installations. Made in the EU.

Description	Code	Quantity/Unit	Price
Lexusheat MLC 16x2mm Pipe – UFH Only – (80m Coil)	1680MLC	80	£1.04
Lexusheat MLC 16x2mm Pipe – UFH Only – (100m Coil)	16100MLC	100	£1.04

Lexusheat Overboard (for 12mm Pipe)

Lexusheat Overboard low height system is ideal for refurbishments and where floor to ceiling height is limited, the boards are only 18mm thick and have been developed to take the Luxusheat FlexiPex 12mm pipe. The fibre cement boards are ideal for heat pump systems due to the thermal conductivity properties. We also have an insulated version for laying engineered board on top.

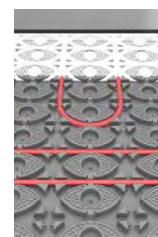

Description	Code	Quantity/Unit	Price
Cement Fibre Overboard - 150mm c/c's		Per Board	
Lexusheat Straight (800 x 600 x 18mm)	OBST68	1	£15.50

Lexusheat Snap Heat Plate (1000 x 590 x 0.7mm)	TSHIP600	1	£14.38

Lexusheat From Below System

Aluminium heat emission plate to be fitted from below when I-beam or metal web joists are installed. The pipe is fitted into and gripped by the specially formed plate with 200mm pipe centres for 16mm pipe.

Description	Code	Quantity/Unit	Price
Lexusheat From Below Plate (1000 x 310 x 0.75mm)	TSHPB310	Each	£10.07
Lexusheat From Below Clip 16mm (Box of 50)	TSHPBCLIP	Box	£6.19

Luxusheat Floating Floor 16

The Luxusheat floating floor systems are high grade expanded or extruded foil backed insulation panels with grooves at 150mm c/c's to take 16mm pipe - usually FlexiPex. As these are made to order please allow plenty of time for us to produce the product.

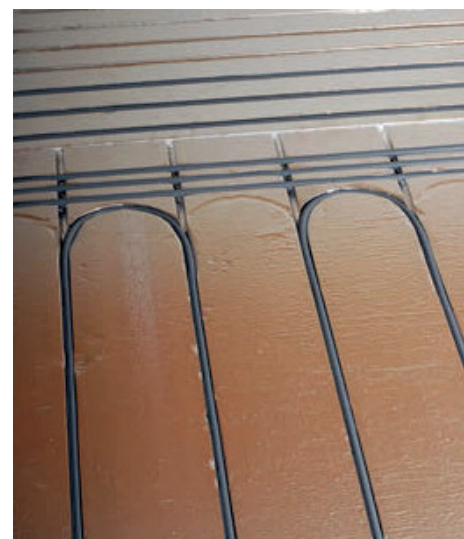

Description	Code	Quantity/Unit	Price

Luxusheat Controls - Heatmiser

We offer three thermostat ranges manufactured by Heatmiser.

The Gold Standard is the NeoStat, they have been designed to be slim and stylish, with three stunning colours available. NeoStat's are just a little bigger than a standard light switch and can be controlled via android and iOS devices for complete control when used in conjunction with the Neo-Hub.

The Silver Standard is the Slimline Range, a fully featured and programmable digital thermostat available in a white finish.

The Bronze Standard is the dial electronic thermostats, simple to use and offers a greater level of accuracy than standard bi-metallic versions. These thermostats are used in conjunction with a separate programmer for night time temperature reduction.

Heatmiser neoStat

The neoStat's have been designed to be slim & stylish, with three stunning colours available. neoStat's are just a little bigger than a standard light switch, so you will notice what it does rather than where it is.

The neoStat's can be controlled from anywhere thanks to the plug and play neoHub.

HomeKit Enabled NeoKits

HomeKit is the smart home framework from Apple, bringing a common platform to control all of your home's compatible accessories.

HomeKit accessories, such as the Heatmiser neoHub, have passed extensive testing by Apple which means when you see the Works with HomeKit logo you can be sure of a great user experience.

HomeKit works on all your iOS devices, from iPhone and iPad to the 4th Generation Apple TV. Control of your home from just about anywhere is possible when you have a 4th Generation Apple TV and smart automation rules are possible, making your smart home even smarter!

With the new Home app, you can securely control all of your HomeKit accessories. You can use the Home app to turn the heating up or lights down and with the help of Apple TV you can do all of this remotely too.

Honeywell evohome WiFi MultiZone System

evohome is a sophisticated heating system that ensures you can create and individually control up to 12 heating zones in domestic properties. evohome will also control domestic hot water. evohome is suitable for any home with a hydronic (wet) central heating system. Zoning solutions can be designed for even the simplest of property layouts. evohome is ideal when looking to control temperatures in larger properties, such as luxury apartments; large family homes; homes with business use; multiple occupancy apartments and light commercial spaces, such as doctor's surgeries and small offices.

evohome allows the installation of multiple temperature sensing devices around the property without altering existing pipework, disrupting décor or damaging fixtures and fittings. With touchscreen control, the user can quickly gain control of exactly where and when the property should be heated.

Remote access is provided via a tablet or smartphone.

Wireless Radiator Controllers provide an easy way of installing.

evohome WiFi multi-zone system

The evohome Connected Thermostat Pack consists of an evohome controller, power lead and stand plus a wireless relay box. A zoning pack is available so that you can create additional heating zones.
