Heating from the ground up

LUXUSHEAT

With over 30 years experience supplying the Plumbing & Heating Industry, you can rest assured that you're in safe hands.

From initial enquiry through to installation, Luxusheat will support you with unrivalled product knowledge and installation expertise.

All our chosen systems carry extensive product guarantees and certification, our designs are covered with Professional Indemnity Insurance, so you can feel confident choosing us as your underfloor heating partner. Contact us today to discuss your project and see how we can help you meet your goals in achieving an efficient, high quality, fully guaranteed heating or plumbing system. Should you wish to bring in your plans to discuss your individual project with one of our engineers, give us a call to make an appointment.

Contents

Luxusheat Room Packs

Room Pack Summary

We believe underfloor heating should be quoted and designed on a project by project basis. The means that we can accurately estimate the materials required for the areas minimising construction waste. We can also make sure that the heating system is as efficient as possible when designing each project individually.

We therefore do not offer large "multi-zone" kits, if there is more than one thermostat and the system size is over three manifold ports (three loops) then we would prefer to quote the project and send a detailed bespoke quotation.

Below is a summary of the Single Room kits with the different floor constructions we supply.

Screed

Pipes at 200mm c/c's with water temperaure blending use with high temperature gas, oil & LPG boilers

From £495.84

150mm c/c's without water temperaure blending use with low temperature heat pumps

From £559.28
ProFix

Low height plastic pipe fixing system that is covered with self-levelling compound to create a final surface similar to screed that will accept all types of floor finishes.

From £762.11

Quick heat up times and energy efficiency makes Profix Ideal for refurbishements with heat pumps.
Overboard - Heavy

The fibre cement boards are ideal for heat pump systems due to the thermal conductivity properties.

From £559.28

The gypsum based cement board can be directly tiled on to. Engineered wooden boards can be floated on top and a thin 9mm ply layer can be laid and fixed to accept carpet or any other floor finish.

Timber Suspended

Heat emission plates are made from aluminium and can be snapped to shorten as required. The heat plates are generally used on intermediate timber floors, the plates in the packs are for joists at 400mm centre's

From £684.05

A bespoke quotation only takes 24 - 48hrs

Screed Room Packs - 200mm c/c

Screed Room Packs at 200mm c/c's with Pump and Blending Valve

0 - 20m^2 - Screed

Single room, one zone pack designed to be plumbed into an existing radiator system, when the radiators are on heat is supplied to the manifold. The pump and blending pack has an integral temperature switch so when the water temperature from the boiler reaches 40°C the contact closes and the underfloor heating pump starts circulating water through the underfloor heating loop. (Not suitable for microbore heating systems please call us for pipework design suggestions)

| Single Room Control Set	Luxusheat MLC 16x2mm Pipe	Screed Edge Strip 50m	16x2mm Eurocone Connector x 2	ProStaple 60mm

*No air temperature controls are supplied with the kit, if air temperature controls are required then please see the thermostat options below. If adding a thermostat a 2 port zone valve may also be required.

Above 20m^2 - Screed

The larger kits come with pump, blending valve and manifold for a single zone, the kit comes complete with pipe and fixings, 2-port valve & by-pass and should be installed with dedicated flow and return pipes from the boiler.

Screed Room Packs - 150mm c/c

Screed Room Packs at 150mm c/c's with Pump Only for Heat Pump Systems

0 - 50m² Screed

These packs are for when a low temperature heat source is used (Heat Pump). So the pipe centres are at 150mm and there isn't a manifold blending valve. The kit comes complete with pipe and fixings, pump, pump valves, 2-port valve & by-pass and should be installed with a dedicated flow and return from the heat source.

New Product - Overboard - Slim 12 Light Tile (20mm Thickness)

Our Overboard tile is a light weight 20mm thick extruded insulation panel with a cement skim on both sides. The boards are fixed using tile adhesive to the existing floor and tiles can be laid directly on top.

The product has straight grooves so overboard returns (OBWMB18R) are needed to complete the installation.

The system is best suited to high temperature heat sources including heat temperature heat pumps.

Overboard Slim 12 Light Tile (1200x600x20mm)	TB720	1	£19.65

Profix Room Packs

0 - 12m^2 - Profix

Single room, one zone pack designed to be plumbed into an existing radiator system, when the radiators are on heat is supplied to the manifold. The pump and blending pack has an integral temperature switch so when the water temperature from the boiler reaches 40°C the contact closes and the underfloor heating pump starts circulating water through the underfloor heating loop. (Not suitable for microbore heating systems please call us for pipework design suggestions)

Pipes

Luxusheat FlexiPex Pipe

Our PEX-a crosslinked polyethylene pipe is manufactured using the Organic Peroxide method, having as a result the highest quality PEX pipes on the market and being Certified by the main European Institutes (AENOR, SKZ, CSTB, IIP) complying with the UNE-EN ISO 15875 European regulations and ISO 9001. Made in the EU with a 25 year guarantee.

Luxusheat MLC Pipe

Our PERT-AI-PERT Multilayer pipe is composed by 5 layers using the butt welded system to deliver the highest quality and it is certified by the most prestigious European Institutes (SKZ, AENOR) complying with the UNE-EN ISO 21003 European regulations and ISO 9001.

The combination of PE-RT and Aluminium provides excellent properties, obtaining the advantages of both materials: Plastic (flexibility, corrosion, low thermal conductivity) and Metal (low linear expansion, pressure, and temperature resistance). Made in the EU with a 25 year guarantee.

Luxusheat FlexiPERT Pipe

Our PE-RT pipe is composed by 5 layers, PE-RT, adhesive bonding, EVOH - oxygen barrier, adhesive bonding, PE-RT. Made entirely of plastics the pipe has a uniform structure which makes it durable, corrosion resistant and non-reactive to metals. A lightweight pipe that can be used in all types of warm water underfloor heating installations.

Our ultra flexible 20mm EVOH pert pipe is manufactured to ISO9001 standards ensuring outstanding performance & reliability. Made in the EU with a 25 year guarantee.

Distribution Manifolds

Luxusheat Flow Meter Manifolds

The Luxusheat Manifold is pre-assembled for quick installation, manufactured to the highest standard and tested to 10bar. Available in 2 to 12 circuits with flow meters for easy loop circuit flow rate setting. The return manifold includes actuator valves for individual loop control via Luxusheat actuators and room control systems. The manifold also comes complete with an automatic air-vent, pressure gauge & drain valves.
Isolation valves are now an additional item and need to be ordered separately

New Product - High Limit Water Protection

Our optional high limit water temperature thermostat protection device replaces the automatic air vent on Luxusheat manifolds. If the flow temperature entering the manifold rises above 60°C, the high limit thermostat will cut the power supply to the underfloor heating pump and 2 port motorised valve. Protecting the floor from overheating and potentially causing damage to the floor surface finishes.

High Limit Water Protection	TFS30	1	£53.33

Pipe Fixing Systems

Solid Screed Fixing

Solid floor constructions are one of the simplest, most cost effective ways of installing UFH. The pipes are laid on insulation then covered with screed which acts as a large heat conductor.

Screed Edge Strip 50m	Conduit 16 - 20mm Pipe (50m)	60mm UFH ProStaple	60mm UFH ProStaple (Bulk)	40mm UFH ProStaple

Luxusheat Design Services

When requested and on placement of an order Luxusheat will provide you with a full design package that will include a detailed drawing as a guide to the installation, and if required comprehensive design that conforms to BS EN 1264 including:

- Manifold design data
- Commissioning information for manifold set up
- Flow temperatures
- Flow rates
- Pressure drop
- Mechanical and electrical schematics
- Air and Floor temperature Figures
- Floor covering details

Pipe Fixing Systems

Slim Retro Fit Systems - 12mm FlexiPex Pipe

Luxusheat can supply a variety of slim underfloor heating systems to suit most retrofit applications whether overboarding an existing concrete floor or creating a new structural floor board with UFH embedded within. One of the most important elements to consider when selecting a retrofit system is the final floor covering as not all our systems are appropriate for all floor finishes.

Fibre Cement Board (800x600x18mm)	Overboard Return	Overlay Glue	Slim 12 Light (1250x600x20)	Slim 12 Light - Tile (1200x600x20)
OSBST68	OBWMB18R	GLUE	OBXPS	TB720

Overboard - Heavy (18mm Thickness)

Luxusheat Overboard low height system is ideal for refurbishments and where floor to ceiling height is limited. The boards are only 18mm thick and have been developed to take the Luxusheat FlexiPex 12mm pipe at 150mm c/c's. The fibre cement boards are ideal for heat pump systems due to the thermal conductivity properties. The gypsum based cement board can be directly tiled on to. Engineered wooden boards can be floated on top and a thin 9mm ply layer can be laid and fixed to accept carpet or any other floor finish.

Description	Code	Quantity / Unit	Price Each
Luxusheat Overboard - (18mm Thickness)			
Luxusheat Fibre cement Board (800x600x18mm)	OSBST68	1	£13.85
Luxusheat Overboard Return	OBWMB18R	1	£3.33
Luxusheat Overlay Glue	GLUE	1	£8.74

Overboard - Slim 12 Light (20mm Thickness)

This is an ideal system for retrofitting underfloor heating, or as an alternative to screed floors. The system can also be installed when underfloor heating was not considered at the design stage and the insulation and concrete slab has already been laid. The high grade extruded XF pre-grooved and foil faced insulation can be laid on top of any sub floor with the final floor finish "floated" on top. The grooves accept 12mm pipe (usually FlexiPex) at 150mm centres and the boards come complete with end returns and feeder runs so there is no need to purchase additional items.

Description	Code	Quantity / Unit	Price Each
Overboard Slim 12 Light - (20mm Thickness)			
Overboard Slim 12 Light XPS insulation panel (1250x600x20mm)	OBXPS	1	£22.34

Overboard - Slim 12 Light Tile (20mm Thickness)

Our Overboard tile is a light weight insulation panel with the same properties of the Overboard Slim 12 but the foil faced insulation covering has been replaced with a cement skim so tiles can be laid directly on top. The product has straight grooves only so overboard returns (OBWMB18R) are needed to complete the installation.

Description	Code	Quantity / Unit	Price Each
Overboard Slim 12 Light Tile - (20mm Thickness)			
Overboard Slim 12 Light Tile (1200x600x20mm)	TB720	1	£19.65
Luxusheat Overboard Return	OBWMB18R	1	£3.33

Pipe Fixing Systems

Profix & Profix Plus Panel - (15 - 20mm Thickness)

The Profix™ Ultra-Low-Profile Screed System for 12mm diameter pipe and the Profix™ PLUS for our 16mm diameter pipe enable market-leading heat outputs and response times to be achieved, even at low water temperatures. In combination with heat pumps, they meet the primary objective of the Future Homes Standard to provide a future-proofed low carbon heating solution to help bring the UK's greenhouse gas emissions to net zero by 2050.
Profix Panel (600x600x15mm)	Profix Self-levelling compound	Profix Plus Panel (1200x600x20mm)	Profix Edge Strip (50m)	Profix Clip Rail (Box 10)

Structural Chipboard (22mm Thickness)

Luxusheat structural board is a P5 MR 22mm tongue and grooved chipboard with routed pipe runs and multiv

g helps distribute the heat quicker and more evenly across the floor increasing warm-up times. The chipboard is laid in the same fashion as a normal chipboard floor deck on top of new or existing joists with a 9mm ply layer fixed on top to accept floor coverings.

22mm Structural Board (Non- Foiled)	22mm Structural Board (Foiled)

Pipe Fixing Systems

Timber Suspended Plates - 16mm Pipe

Heat emission plates are made from aluminium and can be snapped to shorten as required. The heat plates are generally used on intermediate timber floors, our standard plates fit between 400mm and 600mm joist centres. We can produce other sizes (widths) if required.
Emission Plate (1000x390x0.5mm)	Emission Plate (1000x390x0.5mm)	Emission Plate (1000x590x0.7mm)	Emission Plate (1000x590x0.7mm)

Pipe Fixing Systems

Floating Floor - 16mm Pipe @ 150mm & 200mm c/c's

The Luxusheat floating floor systems are high grade foil faced expanded or extruded foil backed insulation panels with grooves at 150mm or 200mm c/c's to take 16mm pipe - usually FlexiPex. As these are made to order please allow plenty of time for us to produce the product.

Free Bespoke Quotation Service

We only supply small one room kits and prefer to take care and quote each project on an individual bespoke basis, this way the quotation is accurate without material waste and to your requirements and specification.

- Quotes returned in 24 - 48hrs
- BS EN1264 Design at quotation stage
  - Flow rates
  - Pressure drop
  - Flow temperature
  - Air and floor temperature figures
  - Floor covering details
- Quotation Drawing showing
  - Thermostat zones
  - Heated area
  - Manifold locations

Heatmiser Air Temperature Controls

neoStat Range

The Heatmiser neoStat in three stunning colour choices is a 230v powered thermostat with a volt free switch. The neoStat is designed to communicate with the neoHub and other neoStats within your home, to create a fully controllable network system of your home heating. The neoStat can be configured to work as a thermostat or as a timer so if you want to take control of your towel rails, or lighting - Neo offers you this and more.

Touchscreen Thermostats

The Heatmiser Touch is our modern Touchscreen Thermostat, compatible with most heating systems. With the Heatmiser Touch, you don't need to worry about reading the product manual, the large touchscreen display makes programming simple. With the Heatmiser Touch, a single or multiple Wireless Air Sensors can be paired to the thermostat. When multiple sensors are used, the average temperature is calculated and is perfect for larger open plan properties

Heatmiser Air Temperature Controls

neoKits

HomeKit is the smart home framework from Apple, bringing a common platform to control all of your home's compatible accessories. HomeKit accessories, such as the Heatmiser neoHub, have passed extensive testing by Apple which means when you see the "Works with HomeKit" logo you can be sure of a great user experience.

Terms & Conditions

LUXUSHEAT LTD TERMS AND CONDITIONS FOR THE SALE OF GOODS

Definitions
Buyer the person who buys or agrees to buy the goods from the Seller.
Conditions the terms and conditions of sale as set out in this document and any special terms and conditions agreed in writing by the Seller.
Goods & Services the articles which the Buyer agrees to buy from the Seller.
Price the price for the Goods, excluding VAT and any carriage, packaging and insurance costs.
Seller Luxusheat Ltd , 20 William Street , Leicester , LE1 1RW

2. Conditions
2.1 These Conditions shall form the basis of the contract between the Seller and the Buyer in relation to the sale of Goods, to the exclusion of all other terms and conditions including the Buyer's standard conditions of purchase or any other conditions which the Buyer may purport to apply under any purchase order or confirmation of order or any other document.
2.2 All orders for Goods shall be deemed to be an offer by the Buyer to purchase Goods from the Seller pursuant to these Conditions.
2.3 Acceptance of delivery of the Goods shall be deemed to be conclusive evidence of the Buyer's acceptance of these Conditions.
2.4 These Conditions may not be varied except by the written agreement of [a director of] the Seller.
2.5 These Conditions represent the whole of the agreement between the Seller and the Buyer. They supersede any other conditions previously issued.

3. Price
3.1 The Price shall be the price quoted on the Seller's order confirmation. The Price is exclusive of VAT which shall be due at the rate in force on the date of the Seller's invoice.
3.2 Any Typo, clerical or other error in any sales literature, quote, price list, invoice or any other document or information used by the company shall be subject to correction with liability on the part of the company
3.3 The company is entitled to make delivery by instalments against any order it accepts from the buyer these terms and conditions shall apply to each instalment delivery and any claim by the buyer in respect of any one or more of the instalments shall not entitle the buyer to treat the contract as a whole as repudiated

4. Payment and Interest
4.1 Payment of the Price and VAT shall be due within 30 days of the date of the Seller's invoice.
4.2 The Buyer shall pay all accounts in full and not exercise any rights of set-off or counter-claim against invoices submitted by the Seller.
4.3 If the buyer fails to make payment by the due date the company may suspend any further deliveries to the buyer and at the company's discretion interest will be charged at 4% over the base rate of NatWest bank from the date payment was due until and including the date the payment was made
4.4 If the buyer does not meet the conditions of payment, or in case of reasonable doubts about the buyers credit worthiness or the buyer makes any voluntary arrangements with its creditors, becomes bankrupt, becomes subject of an administration order or goes into liquidation the company may cancel any outstanding contract with the buyer and all outstanding invoices of the buyers account will become due

5. Goods & Services
5.1 The quantity and description of the Goods shall be as set out in the Seller's confirmation of order.
5.2 The company may makes any changes in the specification of the goods and or services which are required to conform to any applicable statutory or EC requirement or which do not materially affect their quality or performance
5.3 All drawings, designs, specifications, quotes and other information provided by the company are confidential and all rights of copyright shall remain the property of the company and shall not pass to the buyer
5.4 All specifications, drawing and descriptions and particulars of layouts and dimensions submitted by the company are deemed approximate only and descriptions and illustrations in the company's price list and other advertising matter shall not form any part of a contract

6. Warranties
6.1 The Seller warrants that the Goods will at the time of delivery correspond to the description given by the Seller in the confirmation of order. [Except where the Buyer is dealing as a consumer (as defined in section 12 of the Unfair Contract Terms Act 1977), all other warranties, conditions or terms relating to fitness for purpose, quality or condition of the Goods are excluded].
6.2 Subject to the exclusions set out in 6.3 below, the Company confirms the goods will correspond with their specification at the time of delivery and will be free from defect in material and workmanship from the date of delivery for 12 months
6.3 The company shall be under no liability in respect of any defect in the goods arising from any drawing, design or specification supplied by the buyer
6.4 The company shall be under no liability in respect of any defect arising from fair wear and tear , wilful damage , negligence , abnormal working conditions , failure to follow the company's instructions (whether oral or in writing), misuse or alteration or repair of the goods without the company's written approval
6.5 Where the goods are returned by the buyer and accepted by the company as being defective the company shall at its option, either repair or replace the goods without cost to the buyer or allow the buyer a credit on their account. The company shall not be liable to the buyer for any claim by the buyer for any work done on or with the goods, loss of profit, or any loss, damage or cost to the buyer whatsoever. Other than the replacement cost of the goods and the buyer shall not be entitled to withhold payment by reason of defect

7. Delivery of the Goods
7.1 Delivery of the Goods shall be made to the Buyer's address. The Buyer shall make all arrangements necessary to take delivery of the Goods on the day notified by the Seller for delivery.
7.2 The Seller undertakes to use its reasonable endeavours to despatch the Goods on an agreed delivery date, but does not guarantee to do so. Time of delivery shall not be of the essence of the contract.
7.3 The Seller shall not be liable to the Buyer for any loss or damage whether arising directly or indirectly from the late delivery or short delivery of the Goods. If short delivery does take place, the Buyer undertakes not to reject the Goods but to accept the Goods delivered as part performance of the contract.
7.4 If the Buyer fails to take delivery of the Goods on the agreed delivery date or, if no specific delivery date has been agreed, when the Goods are ready for despatch, the Seller shall be entitled to store and insure the Goods and to charge the Buyer the reasonable costs of so doing.

8. Acceptance of the Goods
8.1 The Buyer shall be deemed to have accepted the Goods 24 hours after delivery to the Buyer.
8.2 The Buyer shall carry out a thorough inspection of the Goods within 24 hours of delivery and shall give written notification to the Seller within 3 working days of delivery of the Goods of any defects or shortages which a reasonable examination would have revealed.
8.3 Where the Buyer has accepted, or has been deemed to have accepted, the Goods the Buyer shall not be entitled to reject Goods which are not in accordance with the contract.

9. Title and risk
9.1 Risk shall pass on delivery of the Goods to the Buyer's address.
9.2 Notwithstanding the earlier passing of risk, title in the Goods shall remain with the Seller and shall not pass to the Buyer until the amount due under the invoice for them has been paid in full.
9.3 The Seller may at any time before title passes and without any liability to the Buyer:
9.4.1 repossess and dismantle and use or sell all or any of the Goods and by doing so terminate the Buyer's right to use, sell or otherwise deal in them; and
9.4.2 for that purpose (or determining what if any Goods are held by the Buyer and inspecting them) enter any premises of or occupied by the Buyer.
9.5 The Seller may maintain an action for the price of any Goods notwithstanding that title in them has not passed to the Buyer.

10. Carriage of Goods

Carriage will be chargeable on;
1) Underfloor heating orders under £250 net
2) Plumbing orders under £500 net not including straight lengths of pipe
3) Plumbing orders under £1000 net including 5m straight lengths of pipe
4) Pre-insulated pipe orders £3000 nett.
5) Any order of any size on timed delivery (ie. pre 9am, pre12.0 etc.)
6) Any orders of any size for Saturday delivery

11. Force Majeure
The company shall not be liable to the buyer to the extent that fulfilment of its obligation to the buyer has been prevented , hindered or delayed by the force majeure as herein defined and without limiting the generality of the forgoing company shall be entitled to cancel any delivery in whole or part when it is delayed in or prevented from making delivery by strikes , lock outs , trade disputes or labour troubles or any cause beyond the company's control including without limitation act of god , regulation or request , fire , accident , war , riot , delay in transportation , inability to obtain adequate labour , materials or manufacturing facilities and the company shall not be bound to obtain in the market the goods with which to replace the goods , delivery of which has been cancelled as a result of said events.
