

Underfloor Heating Manifold – Lockshield

OVERVIEW >>>

The Luxusheat Manifold is pre-assembled for quick installation, manufactured to the highest standard and tested to 10bar. Available in 2 to 12 circuits with lockshield balancing valves for accurate circuit flow rate setting. The return manifold includes actuator valves for individual loop control via Luxusheat actuators and room control systems.

The manifold also comes complete with isolation valves, an automatic air vent, pressure gauge & drain valves.

Please Note: Isolation valves are sold separately

DATA TABLE >

MATERIAL	Brass
FLOW & RETURN HEADERS	One piece brass, 1"
LOCKSHIELD MANIFOLD	1x Lockshield valve per circuit for flow rate setting 1x Actuator Isolation Valve per circuit for individual loop control
COMBINED AIR VENT AND FILL & DRAIN POINT	1 x 1/2" Air vent 1 x 1/2" Fill & drain point
PORT SPACING	50mm
BRACKETS	Noise dampened for wall and cabinet installation

Underfloor Heating Manifold – Lockshield

DESCRIPTION	PRODUCT CODE
Manifold Automatic Air Vent	MANAAV
Manifold Pressure Gauge	MANGauge
Manifold Lockshield Assembly	MANLockValve
Manifold Main Isolation Valves	MANISV
Manifold End Cap – Air Vent	MANEndCapAAV
Manifold Actuator Valve	MANActValve
Manifold End Cap – Pressure Gauge	MANEndCapG

✓ MANIFOLD ACTUATOR VALVE MANActValve

✓ MANIFOLD LOCKSHIELD ASSEMBLY MANLockValve

✓ MANIFOLD END CAPS MANEndCapG/MANEndCapAAV

✓ MANIFOLD MAIN ISOLATION VALVE MANISV

✓ MANIFOLD PRESSURE GAUGE MANGauge

✓ MANIFOLD AUTOMATIC AIR VENT MANAAV
